

FIRM OVERVIEW · 2026

THE ADVISORY FIRM THAT DOESN'T STOP AT ADVICE

ARCCentrX

ARCCENTRX.COM

POSITIONING

STRATEGY BUILT TO RUN

02

**Strategy and execution.
Running under one roof.**

Enterprise and mid-market companies facing transformation, scale, transaction, technology, and operating challenges. Most engagements end where the hard part starts. We are the team that thrives on the hard part.

WHO WE SERVE

WHY WE'RE HERE

WHAT'S BROKEN IS RARELY WHAT'S VISIBLE

03

WHAT WE'RE TOLD

The plan isn't working. The real constraint can be somewhere else. Capacity, pricing, quality, consistency, or a process nobody owns.

WHAT WE HEAR

The sales pipeline is stalled. The technology isn't paying off. The spend is real and the pilots are live, but somewhere between the licenses and the results, the value went missing. The plan and the reality stopped matching.

HOW WE WORK

We work out how the pieces actually connect, help you decide what has to change, and build the structure to carry it through. You own the result. You don't rent it.

THE WHOLE BUSINESS, NOT ONE BOX ON THE ORG CHART

01

AI Strategy

Find out what your AI actually returned, then build the operating model around what works.

02

Growth Strategy

Sales infrastructure, market entry, and expansion built on what converts.

03

Technology Infrastructure

Architecture, payments, data, and platform decisions that hold at ten times the volume.

04

Operational Optimization

Process, throughput, and cost, measured before and after.

05

M&A Readiness

Buy side and sell side, from diligence through the integration that decides the return.

06

Compliance and Governance

Build audit readiness into how you ship instead of scrambling every cycle.

07

Organizational Design

Structure, roles, and accountability that match the business you're actually running.

08

Reporting and Analytics

Numbers your board trusts and your teams can act on.

ASSESS. ALIGN. ACCELERATE.

01

ASSESS

Define the obstacle and propose a solution. We frame the problem and understand the outcome you're after before proposing a path forward.

02

ALIGN

Agree on a path forward, and who's responsible. We settle on a plan built for your situation, not a template.

03

ACCELERATE

Execute fast, without cutting corners. We move from decision to delivery with clear ownership and honest tradeoffs.

OUTCOMES YOU CAN POINT TO

330%

CONSUMER FINTECH · MOBILE-FIRST STRATEGY

Made the mobile app the front door and lifted customer value 330%

Mobile logins grew 73% to 229.7M, and the most engaged customers were worth 330% more over their lifetime than those who never logged in.

250%

POST-ACUTE HEALTHCARE · GROWTH

Grew a post-acute healthcare division 250%

Worked across business development, market strategy, sales execution and operational alignment, rather than treating growth as a standalone sales problem.

\$30M

FRACTIONAL LEADERSHIP · ENTERPRISE SALES

Closed a \$30M enterprise opportunity as a fractional executive

Stepped in as a fractional CSO, worked the enterprise opportunity, and navigated the commercial process to close.

BUILT BY LEADERS WHO HAVE SEEN WHAT CONVENTIONAL ADVICE LEAVES BEHIND

08

Not layers of personnel.

A mandate around the enterprise.

Each of ArcCentrx's three co-founders spent their careers working at different companies, in different roles, yet working on solving many of the same problems. Tech. Business strategy. Finance. Sales. Operations. Different vantage points, with the same recurring patterns. The technology question was never only a technology question. The growth problem turned out to be an operations problem. The compliance requirement showed up too late to design around.

THE FIRM

OUR ARCHITECTURE

PRECISION BEFORE MOTION

01

CALIBRATION

02

INSTITUTIONAL
OBSERVATION

03

ARCHITECTURE

04

ALIGNMENT

05

BUILD + MOVEMENT

06

STEWARDSHIP

Engagements are engineered around the mandate, the principal and the end state, never assembled from a standard deck.

CLARITY UP FRONT. EXPERIENCE THE WHOLE WAY THROUGH

01

Success, defined up front

Before any work starts, everyone involved must have a clear definition of what success looks like.

02

Experience, not box checking

We focus on the details that most teams move past. That's usually where the real constraint lies.

03

Patterns, not templates

We bring what we've learned across 100+ of businesses, then apply it to yours specifically.

04

On time, in scope

Every project is defined with a clear outcome, so we keep moving, and the timeline holds.

THE TEAM YOU WANT IN THE ROOM

**\$2 billion in technology
spend overseen. 25+
Fortune 500 companies. 6
exits.**

That's the difference
between a firm that advises
and one that executes.
